R2,823

Pleasant to the ears and ideally suited for those who are worried about their hairdo: Headphones with chin band

The Digta Swingphone 568 GBS’s under-the-chin band is the ideal solution for anyone who places great importance on her styling. This headset spares the hair, and the adjusting wheel allows optimal adjustment for the head width. Incidentally: The Digta Swingphone 568 GBS gives you the choice of three different pairs of ear cushions made of silicon and foam.

No more tangled cables - thanks to the quick disconnect coupling

The Digta Swingphone 568 GBS is equipped with a practical quick disconnect. When you leave your work station, simply leave the long part of the cable with the Grundig connector connected to the Digta Soundbox 830. The Digta Swingphone 568 GBS with the short length of cable can, for example, be stored in a drawer without creating a tangle.
