
Shuttle WWN03 - LTE/4G expansion kit for DS/DH Slim PC series

Model: POE-WWN03

Manufacturer: SHUTTLE

EAN: 887993800318

Product Code: 1055857

R2,048

The Shuttle XPC accessory WWN03 allows the Shuttle XPC slim Barebone DS10U to be upgraded with an LTE/4G function for mobile network. The LTE card will occupy the 2.5" bay, so you have to use an M.2 SSD as mass storage device. The required LTE/4G card in M.2-3042 format and an activated Nano SIM card is not included in the scope of delivery. The existing WLAN function of DS10U can still be used then.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
