Fuel your productivity and bring ideas to life with next-level AI performance. Get ready for a faster, smarter digital journey with a Copilot+ PC engineered for the demands of today’s digital age.

Light. Elegant. Functional.
Swift Go 14 AI Copilot+ PC combines effortless mobility with a beautifully streamlined, laser-etched cover that makes a refined statement anywhere. The ultra-thin and light design opens a full 180°, perfectly adapting to any work style.

Find the Perfect View

Bring content to life in vivid detail with three display configurations to choose from: a responsive 2K touchscreen, or ultra-rich 3K or 2K OLED displays, featuring DisplayHDR True Black 500 and Eyesafe 2.0 certification.

The Ultimate Performance Boost

Breeze through intense workloads and multitask like never before with supercharged AI performance, lightning-fast responsiveness, and multi-day battery life.

Multitasking Mastery

Based on new “Zen 5” architecture, AMD Ryzen™ AI 300 processors come with up to 8 high-performance cores and 16 threads for leading multi-threaded performance.

Your Advanced AI PC Processor

The latest generation of NPU architecture powers Ryzen™ AI, delivering up to 50 TOPS of AI processing performance, enabling local generative AI applications and LLMs to run directly on your laptop.

Console-Class Gaming on the Go

RDNA™ 3.5 architecture enables thrilling gaming performance, high-resolution display support, and hardware-accelerated encoding for smoother gameplay, stunning visuals, and faster video processing.

Your Personal Productivity Partner

These Copilot+ PCs offer more than just fancy software; they’re an extension of your workflow. They anticipate your habits, cater to your needs, and offer intelligent suggestions, so you can focus on what truly matters.

Copilot

Copilot is an AI-powered assistant that helps you get answers and inspirations from across the web, supports creativity and collaboration, and helps you focus on the task at hand.

Turn Ideas Into Art

Everyone has an imagination and an ability to be an artist. Describe or draw your vision with text or image prompts and watch Cocreator generate an interpretation of it.1

Real-Time Subtitles

When you never miss a word, you never miss a beat—like conversation in video calls, dialogue in movies, or instruction in another language. Live Captions can turn them into English subtitles in real time.2

Better Video Calls Anywhere

Improve your lighting conditions. Blur the background. Remove noisy distractions. With Windows Studio Effects, you can instantly show up loud and clear on video calls wherever you are.

Smart and Effortless AI

Intelligent AI solutions are at your fingertips. Effortlessly get answers, streamline settings, optimize your video presence, and elevate communication. Experience intuitive AI that’s easy to use and seamlessly enhances your productivity.

Streamline Your Settings

A versatile tool accessible at the touch of a button, AcerSense™ lets you access all your device’s AI features in one place. For a smoother, more user-friendly AI experience.

Cut Through the Noise

Employing a 3rd mic and AI noise cancellation, Acer PurifiedVoice™ 2.0 suppresses unwanted background noise – ensuring voices heard and spoken are exceptionally clear and crisp.

Boost Your Creativity

Instantly remove backgrounds from images with Acer LiveArt™. Edit and create stickers to paste anywhere, and when you screenshot or open an image, the menu screen intuitively pops up to assist.

Simplify Your Presence

Acer User Sensing™ 2.0 intelligently detects your presence for more secure sessions and intuitive reminders. It also offers quality-of-life features designed to assist with hands-free multi-screen navigation.

Comprehensive Protection

Safeguard your digital life with protection at the hardware and software level – along with biometric security and advanced privacy features.

Your Data and Privacy Secured

Rest assured, knowing your personal details remain protected even if your device is compromised with hardware level Secured-Core PC (Level 3) protection.

On-Device AI Tasks

Instead of dispatching sensitive data to the cloud for processing, the built-in NPU can empower Swift Go 14 AI to perform some AI tasks locally, for increased privacy.

Effortless Login. Staunch Security.
Biometric security features with Windows Hello allow for login through facial recognition or fingerprint sensor, so only you can access your device.

Rest Easy

One flick of the webcam privacy shutter means that all your personal moments are shielded and digitally closed off.

Made for Immersive Experiences

From lightning-fast wireless to crystal-clear video calls, Swift Go 14 AI is equipped for success. With the latest Bluetooth 5.4 and HDMI 2.1 capabilities, turn any space into your personal hub.
