

LogiLink PDU8P01 power distribution unit (PDU) 8 AC outlet(s) 1U Black

Model: PDU8P01

Manufacturer: LOGILINK

EAN: 4052792046427

Product Code: 1055145

R4,125

Whether as an extension or as an option to be able to connect even more devices for example to a single wall oulet, LogiLink's power strip LPS262U enables you to do both. The 2 safety sockets are arranged at an angle of 45°, making it easier to plug in angled plugs. In addition, the LPS262U has sockets with safety shutter, a black/white textile cable and 3 USB-A ports for charging a smartphone, for example. Another special feature is the angled flat plug with earthing contact on the connecting cable, because it fits ideally behind furniture or in other narrow places where normal plugs are just too bulky. With the multiple power strip from LogiLink you gain a practical helper for every room, because due to its cable length of 1.5m you now have even more freedom when placing your devices, whether it is at home or in the office.
