color display, fast 802.11ac and Bluetooth 4.1 wireless connections, class-leading battery technology for full-shift power, disinfectant-ready plastics and powerful remote management tools.

WITHSTANDS CONSTANT DISINFECTING

The ZQ600 Healthcare Series is constructed using medical-grade, disinfectant-ready materials that can be safely cleaned between each use to help prevent the spread of germs in hospitals or clinics.

SUPERIOR POWER MANAGEMENT

The ZQ600 Healthcare Series features the highest battery capacity in it's class with a 3250 mAH battery to ensure staff have plenty of power for every shift. The patented Power Smart Print TechnologyTM ensures the exact amount of power required is delivered for the highest quality printing and PowerPrecision+ technology makes it easy to identify aging batteries before they impact productivity.

ADVANCED PLATFORM GROWS WITH YOUR BUSINESS

The ZQ600 Healthcare Series is powered by Link-OS, Zebra's robust printer operating system, and Print DNA, a combination of productivity, management, development and visibility tools that results in a superior printing experience. It features robust memory capability to support future firmware upgrades and accessories are backwards compatible with the QLn so you don't have to buy new.
