

Vertiv PowerUPS 200 Essential PSA6E-1600IT-SCH, 1600VA/925W

Model: PSA6E-1600IT-SCH

Manufacturer: VERTIV

EAN: 767041045079

Product Code: 1056423

R5,151

The Vertiv PowerUPS 200 Essential Line Interactive Series PSA6E-1600IT-SCH is an affordable and reliable 230VAC uninterruptible power supply (UPS) battery backup system. With 5 Schuko outlets, this UPS offers flexible, basic power protection to multiple devices simultaneously, including computers, wireless networks, retail point-of-sale (POS) equipment, surveillance systems, and more. It has automatic voltage regulation (AVR) which helps to stabilize output power during fluctuations and extend battery life, as well as a two-year warranty for long-term peace of mind. The PowerUPS 200 Essential Series is now more intuitive and user-friendly than ever before with LED lights to easily indicate remaining runtime, user-replaceable batteries, and a dedicated mute button to silence alarms. It also includes Vertiv’s free management software, Vertiv Power Assist, which can be used to gracefully shut down connected equipment during an outage to protect it from damage and data loss.
