

Lanberg FF01-8022-12BL rack cabinet 22U Freestanding rack Black

Model: FF01-8022-12BL

Manufacturer: LANBERG

EAN: 5901969440287

Product Code: 1188765

R18,925

The Lanberg FF01 series of rack cabinets is an excellent, well-thought-out solution for professional ICT environments where it is necessary to safely store and manage a large amount of server equipment. The design of the rack cabinet allows efficient use of space, and its solid workmanship ensures durability and long-lasting use. FF01 server racks are available in a variety of sizes and configurations, allowing for perfect customization.

Thanks to high-quality materials and precise design solutions, the FF01 series guarantees optimal working conditions for server equipment and ease of access and management of ICT infrastructure. In addition, the aesthetic design and the ability to personalize add-ons and mounting components make Lanberg FF01 server cabinets an ideal choice for both large enterprises and smaller companies looking for a reliable and functional solution for their IT infrastructure.

Easy installation

Thanks to the clever design and ease of installation of our FF01 series of standalone server racks, you save valuable time and effort by focusing on your key tasks. Regardless of your level of experience, you can quickly and efficiently organize your data center or server network.
Not only do our racks come with clear paper installation instructions, but we also provide detailed video instructions available online. These step-by-step guide you through the entire process, ensuring that you fully understand each step.
All of our FF01 standing server racks are equipped with grounding, providing additional protection for your equipment. This guarantees the safe use of your equipment, protecting it from potential damage caused by electrical discharges.

Solid workmanship

Focusing on reliability and robustness, Lanberg's FF01 series standing server racks are a guarantee of excellent quality. Designed with attention to every detail, our rack cabinets are distinguished by exceptional durability and precision workmanship, regardless of the application.
The high-quality cold-rolled steel from which the components of our ICT racks are made ensures not only durability, but also precision and robustness of construction.
Each of our server cabinets in the FF01 series is characterized by exceptional solidity of workmanship, which is the result of an advanced manufacturing process , providing excellent results both aesthetically and functionally.

Flat Pack

Our Lanberg server racks are packaged in a "Flat Pack" format for self-assembly. Thanks to this, you can easily transport our racks in vehicles with limited cargo space, as well as have full control over the assembly process.
Our years of experience in the market have given us a great understanding of how to protect components in cartons to minimize the risk of damage during transportation. We use high-quality protective materials and careful packaging to ensure that your server racks arrive in perfect condition - ready for assembly right away.

Efficient cooling

The FF01 series of standalone server racks from Lanberg is the ideal solution for those looking for performance even in the most demanding temperature conditions. Our rack cabinets combine optimal performance with functionality, aesthetics and security.

Thanks to the ventilation hole at the top of the design, each of our cabinets provides excellent airflow, which translates into effective cooling. This element, combined with built-in fans, guarantees temperature control inside the cabinet, which is key to maintaining optimal operating conditions for your equipment.

The design of our FF01 server cabinets has been thoughtfully considered to ensure the highest cooling efficiency. This translates into long-lasting and trouble-free operation of your equipment, regardless of its requirements.
