R3,327

The QL-800 is the perfect choice for office workers who need a reliable and fast address label printer. Quickly print labels from your PC or Mac with this high speed label printer. Thanks to the integrated P-touch Editor Lite label design software it is so easy to use - simply connect to your computer, click the icon to launch the software and design and print your labels. Or use the advanced P-touch Editor label design software to include barcodes, images, and other advanced functions. You're also able to produce labels with both black and red print without the need of ink or toner - ideal to highlight important information on a label. And the integrated cutter allows custom sized labels up to one metre in length when using one of the continuous label rolls.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
