Experience flawless streams, gameplay, and uploads while your network simultaneously processes bandwidth for multiple devices.

OFDMA

Working with a compatible router, your PC receives data at the same time as other devices on the same stream. This means next-to-nothing lag for video and games.

Advanced Security with WPA3

The latest Wi-Fi security protocol, WPA3, brings new capabilities to improve cybersecurity in personal networks. More secure encryption in Wi-Fi password safety and enhanced protection against brute-force attacks combine to safeguard your home Wi-Fi.

Miniature Design Brings Infinite Convenience

Archer TX20U Nano is designed to be as convenient as possible. With its miniature size and sleek design, you can connect the nano adapter to any USB port and leave it there, whether you are traveling or at home.
