Superb image quality

UVC30 Room delivers a best-class image quality with natural color reproduction, smooth video and detail, endeavoring to optimize the meeting experience for users. UVC30 Room also supports multiple resolutions, including 4K/30FPS, 1080P/30FPS, 720P/30FPS adapt to different displays and applications.

Smooth and correct auto-framing, API for data analysis

Based on face detection, UVC30 Room is capable of an auto-framing feature to frame people in the room smoothly and correctly, bringing a more intelligent meeting experience for users. With API developed, statistic data of people in the meeting room is accessible for further analyzing.

Ultra expansive field of view

With a 120° field of view, everyone sitting in the room can be seen without any position adjustment, perfectly suited for focus and a small meeting room.

Easier and smooth PTZ control

Certified by Microsoft & Zoom, UVC30 Room can achieve an easier and smooth PTZ control on the touch console via Yealink RoomConnect and Zoom Rooms Camera Control. It can perfectly work with all Microsoft Teams Rooms systems and Zoom Rooms systems as a USB camera.

Multiple mounting options

With a retractable clip, you can mount UVC30 wherever it works best, whether on the top of the monitor, under the monitor or on the wall.
