R1,731

The Sony SRS-XB100 is a super-portable and durable Bluetooth speaker with impressive sound for its size so you can now enjoy powerful, clear sound wherever you go.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

The Sound Diffusion Processor spreads the sound further in all directions and the Passive radiator and Full-range speaker enhance low-end tones to produce deep bass.

The battery lasts up to 16 hours and the speaker has a convenient battery status indicator. Battery charging is done via USB-C.

With IP67 rating, it is waterproof and dustproof. And the XB100 body has new UV coating to last even in bright sunshine, so you can take this speaker anywhere without worries.

The SRS-XB100 is built for life on the go. Thanks to its small size and light weight it is easy to take with you. Plus, it comes with a multiway strap that you can use to carry or attach your speaker.

The XB100 is compatible with both iOS and Android, and supports Fast Pair for Android.

This portable speaker can also be used to make phone or video calls as it supports better call quality with Echo Cancelling technology. This means two people can talk at the same time with no clipping or cutting out.

If you want an even bigger sound, connect two XB100 speakers wirelessly for stereo sound that will spread even further.

The XB100 is made with the environment in mind. The product is made of recycled plastics and comes in plastic-free packaging.

The SRS-XB100 is available in 4 colours - Black, Light Grey, Blue and Orange
