

Western Digital Red Plus 8TB WD80EFPX

Model: WD80EFPX

Manufacturer: WESTERN DIGITAL

EAN: 718037899817

Product Code: 1578278

R9,283

The **WD80EFPX** from **Western Digital** is a part of the renowned **Western Digital Red Plus** series, designed specifically for NAS (Network Attached Storage) systems. With a substantial **HDD capacity of 8 TB**, this hard drive provides ample space for storing large amounts of data, making it an ideal choice for both home and small business environments. The **3.5" HDD** size ensures compatibility with a wide range of NAS devices, allowing for easy integration into your existing setup.

Operating at a speed of **5640 RPM**, the WD80EFPX delivers reliable performance for data-intensive applications. The **256 MB storage drive buffer size** enhances data transfer rates, ensuring smooth operation even during heavy workloads. This combination of speed and buffer size positions the WD80EFPX as a superior choice for users seeking efficient data management and retrieval in their NAS systems.
