MX 8.2 PRO TMR. MORE THAN MAGNETIC.

Ultra-fast wireless. Extreme magnetic precision. Hot-swap between magnetic and mechanical switches. Built for gaming, ready for work. The MX 8.2 Pro TMR keyboard brings you the best of all worlds.

NEXT-LEVEL PRECISION: TMR WITH CHERRY MK MAGNETIC SWITCHES.

At the heart of the MX 8.2 Pro TMR are CHERRY MK switches powered by advanced TMR sensing. Unlike Hall sensors, TMR senses magnetic changes by measuring shifts in resistance, capturing input with 0.01 mm precision. The result: Sharper accuracy, lower power use and stronger ingame performance. CHERRY MK switches deliver ultra-responsive triggering, with a supersmooth linear feel.

HOT-SWAP BETWEEN MAGNETIC AND MECHANICAL SWITCHES.

DualMaster means no compromises. MX 8.2 Pro TMR supports both CHERRY MK magnetic and MX mechanical switches. Magnetic precision for gaming. Tactile response for work. Swap anytime, with full flexibility across most keys. Find your perfect typing experience.

CUSTOMIZE EVERY KEYSTROKE WITH CHERRY MAGCRATE SOFTWARE.

Take full control with CHERRY MagCrate. Adjust actuation points per key. Enable advanced features like RT, Dynamic Key travel (DKS), Mod Tap and SnapKey. Assign macros. Customize RGB lighting. And save it all onboard.

ULTRA-FAST 8K WIRELESS + WIRED CONNECTIVITY.

While most magnetic switch keyboards stay wired, MX 8.2 Pro TMR goes wireless thanks to TMR’s low-power efficiency. This keyboard supports USB, 2.4 GHz wireless and Bluetooth connections. A high-frequency master chip powers both wired and wireless modes at an 8000 Hz polling rate. Reporting up to 8 times every millisecond, it enables your computer to react faster to every keystroke.

8000 MAH HIGH-CAPACITY BATTERY.

To keep you in the zone, MX 8.2 Pro TMR combines CHERRY’s low-power magnetic sensing with an 8000 mAh battery for extended play across all modes. And when you need to plug in, you can keep playing without losing momentum.
