MeetingBar A40 is a next-generation all-in-one video bar that leverages industry-leading AI to enhance video and audio experience in daily hybrid meetings. It offers easy deployment and use, making it ideal for premium small and medium-sized meeting rooms. The One Cable Solution maximizes simplicity in two ways. A single Cat5e cable from the bar provides power and network connectivity to the touch console, automatically synchronizing the Teams account. Additionally, a single USB-C cable on the desk enables 4K sharing, General Mode, and PD charging.
