

TRUTHEAR Hexa Wired In-Ear Headphones (Black)

Model: Hexa black

Manufacturer: TRUTHEAR

EAN: 6975462650039

Product Code: 1018109

R2,553

TRUTHEAR Hexa Wired In-Ear Headphones (Black)

The TRUTHEAR HEXA is the perfect choice for those seeking exceptional sonic harmony in every note. Equipped with a hybrid driver system (1 dynamic driver + 3 balanced armature drivers in each earbud), they offer unparalleled precision in sound reproduction. The combination of modern technology, thoughtful design, and high-quality craftsmanship ensures that the HEXA delivers sound that moves you to the core.

Powerful bass and clear highs

At the heart of the HEXA is a 10 mm dynamic driver that generates deep, energetic bass. The use of a flexible polyurethane suspension and a liquid crystal polymer (LCP) diaphragm allows for precise tuning and smooth transitions between frequency bands. It is accompanied by a midrange driver

that ensures natural midrange reproduction. A dedicated high-frequency armature driver adds detail and clarity to every sound. Together, they create a full sound spectrum, from rich lows to sparkling highs.

Precise Frequency Division

Hybrid frequency division technology allows each driver to operate within its optimal range. Thanks to the use of DLP 3D printing, the headphones' acoustic design incorporates structures that filter acoustic waves, enabling precise sound processing. The result is a natural sound without phase shifts that can distort the listening experience. Thanks to this, the HEXA not only sounds exceptional but also delivers a sense of spaciousness and harmony.

Wide Frequency Response for Every Nuance

HEXA offers an impressive frequency response ranging from 8 Hz to 40 kHz, ensuring that every detail is captured with surgical precision. Within the effective range of 20 Hz to 20 kHz, the headphones reproduce sound in accordance with the natural characteristics of human hearing, delivering deep bass, balanced mids, and crystal-clear highs. HEXA's frequency response makes music sound not only dynamic but also completely authentic.

Wearing Comfort and Durability

The HEXA housing is made using DLP 3D printing and premium-grade medical-grade resin, ensuring lightness, durability, and skin safety. A metal plate made of anodized aluminum, further secured with screws and adhesive, protects the structure from damage. Thanks to their compact design and rounded edges, the earbuds fit perfectly in the ear, minimizing discomfort even during extended use.

Premium Cable and Customization Options

The TRUTHEAR HEXA features a four-strand silver-plated cable that not only improves signal quality but also enhances durability. Thanks to the universal 0.78 2-pin connector, you can replace the cable, which opens up new possibilities for customizing sound and functionality.

- TRUTHEAR HEXA earbuds
- Four strands of high-quality silver-plated cable
- Ear tips: 3 sizes (S, M, L) – wide diameter
- Ear tips: 3 sizes (S, M, L) – narrow diameter
- Foam ear tips (size M)
- User manual
- Warranty card

Manufacturer	TRUTHEAR
Model	HEXA
Color	Black
Drivers	1 dynamic + 3 balanced armature
Diaphragm	Polyurethane suspension + liquid crystal (LCP)
Impedance	20.5Ω ±15% (@1kHz)
Sensitivity	120 dB/Vrms (@1kHz)
THD	≤1% @1kHz (94 dB)
Frequency response	8 Hz – 40 kHz

Effective frequency response 20 Hz – 20 kHz

Color: black, Type: In-ear , Cable length (cm): 120, Gross weight: 260, Box length: 16,00, Box width: 9,50, Box height: 4,50, Net weight: 100, Last delivery: 15.09.2026, GPSR Link: https://psr-assets.innpro.pl/audio/sg_audio_headphones.pdf
