solutions that add new capabilities that allow you to do more with the TC22/TC27.

Get the boost you need to compete with any size business with the TC22/TC27 — the smartphone style workers want, and the features your business needs, all at a price you can afford.

The Smartphone-Style Device That’s Made for Work.
Applications run at lightning speed, thanks to the next generation processor and class-leading memory. See more and scroll less with the advanced 6 in. FHD+ display. Support through Android 16 ensures you won’t outgrow the operating system. When it comes to durability, these devices are built to handle it all — rain, snow, dust and accidental drops — even into water. And Corning® Gorilla® Glass protects the display and scanner exit window.

Fast Data Capture — in Less Time with Less Effort.
Cut the time and effort to capture barcodes nearly in half, compared to scanning with a mobile phone. Both the integrated standard and advanced range 1D/2D scanners capture barcodes in a split second, regardless of condition. With integrated support for Apple VAS, Google Smart Tap and tap-to-pay, you can handle just about any type of transaction, with any type of payment method or any type of loyalty card or mobile wallets ticket.

The Best Wireless Has to Offer.
Connect your workers inside your facility and out in the field through fast and latest 5G and Wi-Fi 6/6E wireless networks. Support for private 5G and CBRS private LTE networks enables cost-effective wireless connectivity in the largest indoor and outdoor facilities. In addition, Bluetooth 5.2 enables unique features that enable effective ways to communicate and collaborate.
