

LogiLink WZ0028 PoE adapter

Model: WZ0028

Manufacturer: LOGILINK

EAN: 4052792035001

Product Code: 1074122

R855

LogiLink’s Network Cable Tester is the best choice for budget oriented installers and service engineers. With this tester, the installer finds any basic cabling problem very quickly. This cable tester has many features; basically it is ideal for testing cables including Cat5, Cat6, Cat7 as well as Coax and Telephone cables. LogiLink’s Network Tester is suitable for RJ45, RJ11, RJ12 and BNC connectors. This set is equiped with LogiLink’s POE finder which reviews and determines if a network cable or port is providing Power-over-Ethernet or not. The POE-Finder indicates whether the PoE is active on the endspan (1-2/3-6) or midspan (4-5/7-8) pairs.
