cable.

Wide range of applications: Ideal for conference rooms, training courses, digital signage, and professional workstations.

The InLine® DisplayPort 1.2 cable is the reliable solution for professional applications that require the highest signal quality and secure connections. With its triple shielding and gold-plated contacts, it ensures stable and interference-free transmission of image signals. Thanks to its support for resolutions up to 3840x2160 at 60Hz, the cable enables razor-sharp and smooth display in Ultra HD quality.

A special feature is the locking plugs, which reliably prevent accidental disconnection and thus ensure permanent connections – a decisive advantage in conference rooms, digital signage installations, or when used in productive working environments. The robust round cable with AWG 28 cross-section impresses with its durability and stability in daily use.

With the InLine® DisplayPort 1.2 cable, you can rely on a high-quality connection solution that meets professional demands for quality, reliability, and flexibility.

Outer diameter: 7.0 mm

Operating temperature: -10 to 60 °C

Storage temperature: -20 to 70 °C

DisplayPort: 20-pin plug to 20-pin plug

Design: Round cable

InLine Bulk ecoPacks are environmentally friendly bulk packaging in which the items are only packed in a PE bag to protect against moisture and in a uniform box. The packaging unit varies depending on the item size for optimal utilization. InLine Bulk ecoPacks are particularly suitable for direct use, e.g. B. for your own use or for installation at the customer's site. You get the proven InLine quality with minimal packaging. This saves time and money and protects the environment.

More economical: quick unpacking saves you time

Ideal for use by customers

More environmentally friendly: Less packaging (small waste)

The cables are packed together in a PE bag to protect against moisture. Individual slip bags are no longer needed.

More economical:
