

Zyxel NWA210AXV2-EU0101F wireless access point 2975 Mbit/s White Power over Ethernet (PoE)

Model: NWA210AXV2-EU0101F

Manufacturer: ZYXEL

EAN: 4718937654208

Product Code: 1080753

R4,928

Elevating proven WiFi 6 performance.

AX5400 WiFi 6 built for stronger and stable connections.

Elevating proven WiFi 6 performance.

Zyxel’s NWA210AXv2 takes WiFi 6 to the next level with AX5400 throughput and dual 2.5GbE ports, providing true multi-gigabit performance and flexible deployment options.

Equipped with advanced 802.11ax technologies such as OFDMA and BSS Coloring, the NWA210AXv2

delivers faster speeds, greater capacity and a smooth, reliable experience in today’s high-density, performance-driven environments.

Built for stronger and stable connections.
Featuring a 6-stream 4x4:4 (5GHz) + 2x2:2 (2.4GHz) antenna design, the NWA210AXv2 ensures consistent, high-quality coverage even in high-density environments.

Our RF-first by design approach provides advanced cellular coexistence technology that further minimizes interference from 4G/5G networks, delivering stable connections and reliable WiFi performance across every deployment.

Smarter, safer WiFi with Connect & Protect.
Our Connect & Protect (CNP) service delivers security at the edge of your network, automatically blocking phishing, malware and malicious sites with advanced IP reputation and DNS filtering. Applied individually to each Zyxel Networks wireless access point, it offers flexible, per-device protection that fits your network’s needs.

Managed through the Nebula cloud platform, CNP helps you prioritize key applications and ensure fast, reliable WiFi for every user – keeping your business secure and connected with confidence.

Click. Tap. Done.
Get up and running in minutes with the Nebula mobile app. With just a few simple clicks, our user-friendly step-by-step wizard walks you through the entire installation process, no technical expertise required.

Once connected, the intuitive interface gives you complete control, making it easy to adjust settings, monitor performance and manage your network anytime, anywhere.

Powerful, effortless and scalable connectivity.
With Nebula, you can manage your entire network – wireless, switching, security and LTE/5G – through a single centralized cloud platform. Deploy and configure devices quickly and remotely, without the need for extra hardware controllers or software.

Whether you're managing one site or many, Nebula delivers real-time monitoring, instant alerts and

complete network visibility – anytime, anywhere.

Scale confidently, simplify operations and stay secure – all through one intuitive platform.

A self-optimizing WiFi network.
Nebula takes the hassle out of wireless network management with smart automation powered by AI.

With features like WiFi Aid and Wireless Health, it can continuously monitor WiFi performance from the user’s perspective – detecting issues, pinpointing problem areas and even fixing them in real time to create a self-optimizing network that delivers a seamless, reliable and truly exceptional WiFi experience for every user.

Power your network with an instant 2.5x performance boost.
The XMG1915-10EP/18EP switch, when paired with Zyxel’s NWA210AXv2 WiFi 6 access point, delivers an instant performance boost for small and medium-sized businesses – offering up to 2.5x faster speeds than standard gigabit networks.

Enjoy effortless multi-gigabit upgrades over your existing cabling, reducing costs and complexity while unleashing the full potential of next-generation WiFi.
