R2,672

Freewell Osmo Pocket 4P All Day 8-Piece Filter Set

The Freewell All Day 8-Pack Filter Set was designed for DJI Osmo Pocket 4P users who want to achieve even better video quality in all lighting conditions. The set includes eight filters (ND8, ND16, ND32, ND64, and hybrid ND8/PL, ND16/PL, ND32/PL, and ND64/PL filters), allowing you to easily select the right option for the light intensity and nature of your shot. ND filters help preserve a natural motion blur effect even in bright sunlight, while the ND/PL models additionally reduce unwanted reflections and enhance color saturation, allowing you to achieve a more contrast-rich and vivid image.

Quick replacement and complete freedom to film

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

The QuickSwap system enables fast, convenient, and secure filter replacement without interrupting your work, allowing you to react immediately to changing lighting conditions. The lightweight, precision-engineered design is fully optimized for the DJI Osmo Pocket 4P and does not affect the gimbal’s smooth operation. This makes the Freewell kit ideal for both everyday recording and more demanding projects, providing professional control over light, colors, and reflections in any situation.
