InLine 10820S coaxial cable BNC 20 m Black

Model: 10820S

Manufacturer: INLINE

EAN: 4043718347742

Product Code: 1081479

R2,359

12G-SDI support up to 12 Gb/s: Enables the transmission of 4K signals at 60 Hz over a single 75 Ohm coaxial cable and meets the high demands of professional video applications.
Standard 75 Ohm impedance: Ensures stable signal transmission within SDI infrastructures and minimises reflections and signal loss.
Broad SDI compatibility: Supports SD-SDI, HD-SDI, 3G-SDI, 6G-SDI and 12G-SDI for maximum flexibility in existing and new installations.
High-quality shielding: Reduces interference and ensures consistent signal quality even in signal-intensive environments.
Robust BNC connectors with locking mechanism: Provide a secure hold and reliable contact in permanent installations or mobile use.

The InLine® BNC video cable with 12G-SDI support is designed for professional video transmissions with high data rates. It enables the transmission of 4K signals at 60 Hz with data rates of up to 12 Gb/s via a single 75 Ohm coaxial connection.
The standard-compliant impedance of 75 ohms ensures stable signal transmission within SDI

systems. The high-quality shielding reduces external interference and supports reliable signal quality even in complex installation environments.
The cable supports the SD-SDI, HD-SDI, 3G-SDI, 6G-SDI and 12G-SDI standards and can therefore be used flexibly in existing infrastructures. The robust BNC connectors with locking mechanism ensure a secure connection and reliable contact in daily operation.

Connector 1: BNC plug

Connector 2: BNC plug

Impedance: 75 ohms

Supported standards: SD-SDI, HD-SDI, 3G-SDI, 6G-SDI, 12G-SDI

Maximum resolution: 4K @ 60Hz
