

InLine 17201W DisplayPort cable 1 m White

Model: 17201W

Manufacturer: INLINE

EAN: 4043718347469

Product Code: 1081520

R889

High resolution support for modern workplaces: Transmits razor-sharp images with up to 7680x4320 pixels at 60Hz – ideal for CAD, video editing, or presentation technology.
Reliable signal quality thanks to triple shielding: The robust cable construction effectively protects against electromagnetic interference – for a stable and secure connection.
Long-term investment security: With DisplayPort 1.4 specification, HDR support, and 8K compatibility, the cable meets the highest technical standards.
Professional workmanship with gold-plated contacts: Reduces contact resistance and extends service life with frequent reconnection – particularly important in changing system environments.
Universally applicable in IT and digital signage: Reliably connects PCs, workstations, monitors, and large displays in professional applications.

The InLine® DisplayPort 1.4 cable series offers a professional connection solution for demanding AV installations in office, technical, and industrial environments. It supports the transmission of image content in Ultra High Definition with a resolution of up to 7680x4320 (8K@60Hz) as well as 4K content with high refresh rates of up to 120Hz. Thanks to support for HDR, RGB/4:4:4, 4:2:2, and 12-

bit color depths, the cable delivers excellent image quality and high compatibility.
The triple-shielded design effectively protects against external interference and enables reliable data transmission—ideal for multi-monitor setups, digital signage solutions, or control rooms. Gold-plated contacts ensure durable, stable connections—even with frequent changes of connected devices. The series is ideal for a wide range of installation scenarios, both stationary and mobile.

DisplayPort connector to DisplayPort connector
DisplayPort version: 1.4
Supported resolutions: FUHD 7680x4320 8K@60Hz, UHD 3840x2160 120HZ RGB/4:4:4 8bit HDR OFF, UHD 3840x2160 120HZ RGB/4:2:2 12bit HDR ON, UHD 3840x2160 60HZ RGB/4:4:4 12bit HDR ON, FullHD 1920x1080
Shielding: triple shielded
Color: white
Contacts: gold-plated
Packaging: PE bag with EAN code
