on the go.

The InLine® 4in1 Gigabit Hub offers a versatile solution for expanding existing IT workstations. With its combined USB-C and USB-A connection, it can be connected to a wide range of modern and classic devices – from notebooks and tablets to desktop PCs. The integrated RJ45 Gigabit Ethernet port ensures a fast, stable connection to the wired network with transfer rates of up to 1 Gb/s.
Three USB-A 3.2 Gen.1 ports are also available for easily connecting input devices, storage media or other USB peripherals. The transfer rate of up to 5 Gb/s ensures smooth workflows – even with data-intensive applications. Thanks to support for all common operating systems and plug-and-play functionality, the adapter is ready for use immediately without prior driver installation.
Its compact format and robust construction make the hub ideal for daily use at different workstations or on the go – a reliable solution for network and port expansion wherever it is needed.
