R4,768

The ViewShare WPD-900 is a user-friendly, stable, and secure wireless casting solution that builds on the strengths of its predecessor, the ViewShare WPD-700, with enhanced compatibility. Supporting over 90% of devices, it enables seamless casting via peer-to-peer connection, Miracast, and iOS/macOS screen mirroring, providing exceptional flexibility. Its plug-and-play functionality eliminates the need for network setup or software installation, ensuring a hassle-free experience. The ViewShare supports up to 1080p Full HD resolution and allows DRM-protected content streaming from platforms like Netflix and Disney+. Additionally, a USB-C port with pass-through charging lets users connect and charge their devices simultaneously. With a sleek, modern design, the ViewShare combines style and ease of use. Its 30-meter transmission range delivers stable, secure wireless casting, making it an ideal choice for both professional and personal use.
