Front door and back yard

Compact sleek design allows it to fit in every corner and it's easy to install. You can install it anywhere you need it, no matter at the front door or put it in the back yard. It will get every corner around or in your house covered.

Day and night

Advanced night vision technology enables the security camera to achieve early targeting across large areas in total darkness, any weather, or even fog over 98ft (30 m) away on a moonless, cloudy night, helping you reveal the secrets of the night around you

Build smart home with IMOU device

With a home security system, cameras can be set to start recording as soon as any part of the security system is triggered, such as a contact sensor, a glass-break sensor, or a motion sensor. This makes the cameras record everything that’s happening on you

Human detection

Different from PIR detection, you don’t have to be bothered by a slight misleading, truly time saving.

Customizable detection zone

You can customize detection zone to focus on the space you truly care like your garage, children' play ground or your swimming pool. And filter out those places on road or from your neighbors’ .
