

Acer H6815P 4000 ANSI lumens DLP UHD 4K (3840x2160) White

Model: MR.JWK11.001

Manufacturer: ACER

EAN: 4711121443725

Product Code: 1091013

R18,144

4K UHD Resolution

Immerse yourself in a whole new environment with unprecedented detail and color accuracy. 4K UHD projections show details in 8.3million pixels to give a four times higher resolution than Full HD.

4,000 Lumens Brightness

See crystal-clear, vibrant images from a distance in daylight or medium to large rooms with up to 4,000 lumens of brightness.

HDR10 Compatible

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

More realistic, natural images are provided through an expanded contrast ratio and color palette using HDR10 compatibly. HDR (high dynamic range) is a display technology that creates deeper levels of black and white contrast using scalar chip decoding and mapping technology to give a greater level of immersion through realistic image recreation.

1080p Resolution at 240Hz Refresh Rate[1]

Catch every detail of fast-paced sports, movies, and games with FHD 1080p clarity and an impressive 240Hz framerate for hyper-smooth images.

Low Input Lag[1]

Enjoy responsive control whether playing racing, sports, or action games with an ultra-low latency that reduces frame delay to an incredible 5ms[1].

Rec. 2020 Compatible

For superior color reproduction this projector is Rec. 2020 compatible. Defined in the latest HDR specifications, Rec. 2020 reproduces a number of new tones of green and offers improvements to the number of blue and red colors.

ISFccc Professional Calibration[2]

Get the most out of your projector’s images with professional calibration from an ISF-qualified technician[2].

Football Mode

Gather your friends and share in the glory of your favorite sport on an immense screen. Football mode enhances the colors to clearly show all the action.

Keystone Correction for Distortion

Finding the right angle for your presentation is easier with keystone correction, which corrects horizontal and vertical distortion.
