The USB to Gigabit Network Adapter with 3-Port USB Hub expands a single USB-A or USB-C port into a reliable wired network connection and versatile USB connectivity. Featuring Gigabit Ethernet with speeds up to 1000 Mbps, it provides stable and efficient data transmission for work, streaming, and everyday online tasks.

The integrated 3-port USB-A hub makes it easy to connect peripherals such as keyboards, mice, and storage devices, while USB 3.2 Gen 1 technology delivers SuperSpeed data transfer rates up to 5 Gbps. Wake-on-LAN support allows remote system startup over the network, making this adapter well suited for professional and business environments.
