Model: STND-LR

Manufacturer: AXAGON

EAN: 8595247908650

Product Code: 1154390

R1,651

AXAGON STND-LR is a stand with 360° rotation, double hinge and extendable arm that provides maximum comfort and significantly improves ergonomics when working with a laptop or tablet. Designed for devices from 10" to 17.3", it allows you to adjust the ideal height and angle to relax your neck and back muscles. Thanks to its 360° mechanism and extendable arm, it adapts perfectly to your needs whether you are working at home, in the office or on the move. The compact and portable design of the stand ensures a comfortable working environment anywhere.

The 360° mechanism allows the entire arm with the laptop to rotate around its axis. This feature provides maximum flexibility - you can easily change the orientation of your laptop without having to move the stand. You'll especially appreciate this when working in confined spaces, or when sharing your laptop screen during business meetings, briefings or presentations.

A unique feature is the extendable arm with anti-release lock, which allows it to be extended by up to 6 cm thanks to seven adjustable positions. This makes it easy to adjust the laptop to the optimal height and distance from your eyes to suit your needs. The clever double-hinge solution provides smooth adjustment of the screen height to be flush with your external monitor. This gives you an additional workspace at the correct eye level, greatly improving ergonomics, increasing comfort and boosting your productivity.

The laptop stand is made of robust aluminium castings guaranteeing long life and reliability. Thanks to the non-slip treatment, your device will stay securely in place without the risk of unwanted movements, without causing any damage to the surface of the laptop or the pad. These carefully designed features ensure perfect stability for your laptop, tablet or favourite book, giving you peace of mind and comfort during everyday use.

The stand can be easily folded into a compact size, making it convenient to carry wherever you need to go. Its elegant design will stylishly complement your desk. Ventilation holes in the pad ensure optimal heat dissipation from your laptop, increasing its performance and durability.

Features:

- Lightweight and strong metal construction.
- Anti-slip finish, which also protects the device from scratches.
- Suitable for 10" - 17.3" laptops or other devices.
- Swivel arm mechanism (360° around its axis).
- Adjustable height up to 260 mm.
- Many adjustable positions.
