HPE Aruba MM-VA-50 Mob Mstr 50 Dev E-LTU

Model: JZ106AAE

Manufacturer: HEWLETT PACKARD ENTERPRISE

EAN: 190017188850

Product Code: 1183558

R36,365

Aruba Virtual Mobility Master software is the next generation of master controller that can be either deployed as a virtual machine (VM) or installed on an x86-based hardware appliance. The Mobility Master provides a better user experience, flexible deployment models, simplified operations and enhanced performance. Aruba Mobility Master is deployed as a virtual machine (VM) for more memory and compute power to address today's technology needs for mobility and IoT. It provides automatic RF optimization for high-density environments and enables hitless failover in an unlikely event of a controller outage.

Product Description: HPE Aruba Virtual Mobility Master - licence - up to 50 access points and MCs total | Product Type: Licence | Category: Online & appliance based services - appliance software | Licence Qty: Up to 50 access points and MCs total | Licensing Details: ESD
