400x400, 600x400. The multimedia device and/or camera can be stored on the shelves.

Adjustable height and viewing angle

The floor stand allows you to adjust the height of the TV to max. 219cm with the convenience quick release spring. Do you prefer the portrait mode over the landscape mode? Just turn the screen 90°. With the tilt functionality (+10° / -10°) you can set the best viewing angle.

Cable management system

The cable management system keeps the cables out of sight and the TV cart can be moved easily in this way.
