Introducing ULT Wear: With huge, powerful bass, impressive noise cancelling, and audio technologies from Sony’s award-winning WH-1000XM5 headphones, you can take the ULT POWER SOUND experience wherever you go.

At the tap of the ULT button, these headphones offer two unique sound settings to deliver exhilarating audio experiences for the power sound obsessives: Deep Bass, which adds huge resonating depth to the lower frequencies, and Attack Bass, bringing impressive drive and energy to the music. And thanks to its Noise Cancelling and Ambient Sound modes, you can use the ULT WEAR however you want, wherever you are.

The battery life is impressive. Even with noise cancelling on, you can keep the beats playing for 30 hours straight, and since ULT WEAR are designed to be seriously comfy, you can keep even the longest playlists going without compromise.

Hands-free calls are clear and easy to understand, even when you’re surrounded by noise. You can even connect ULT WEAR to two devices at the same time using the Multipoint Connection. So, if you’re listening to music on your laptop and then get a call on your phone, the sound will switch over automatically without needing to push a button.

With unrivalled power and breath-taking detail, ULT WEAR deliver the ULT POWER SOUND experience, perfect for the bass obsessives.
