Double Interface Compatibility

ASUS ZenDrive U9M offers two cables which USB Type-C and Type-A interface support a variety of laptops including PC and Mac. The reversible Type-C for any-way-up connectivity convenience, enable ultra-fast data transmission from compatible devices.

Save Your Precious Memories for 1,000 Years

ASUS ZenDrive U9M supports M-DISC, an archival-quality storage solution designed to help users protect their most precious digital memories — such as family photos and home videos — Compared to hard drives, flash drives, and other writable media, which have the storage lifetime of around 8 years, M-DISC burning technology engraves recorded data into a patented rock-like layer that is resistant to extreme conditions, allowing you to save your lifetime memories and important data for 1,000 years or more.

The Most Robust Backup Solution

ASUS ZenDrive U9M provides a complete, easy-to-use backup solution. Intuitive, bundled software called CyberLink Power2Go 8 and PowerBackup, simplifies the disc-burning process and offers optional encryption functionality to protect your private files, further provides auto backup data archiving. It also comes with wireless backup from Android device to computer by Nero BackItUp application. Together, these powerful functions protect your information and minimize the risk of data loss to give you peace of mind.
