R993

No ”Oops!” with Hoops! The PanzerGlass® Hoops Camera Lens Protector keeps your camera lenses safe from accidental drops on stone-hard floors, bumps against sharp corners, and the screeching kiss of keys in your pocket. The slim profile optic rings are equipped with scratch-and shock-resistant glass and a metal frame that protect your lenses as well as looking great. And if you’re worried about image distortion, you can rest easy: Hoops don’t affect the clarity of your lenses or the quality of your photos – they just give you a bit more peace of mind. The optic rings are designed for easy application and perfect fit. They are equipped with a silicone adhesive along the edges and come with an easy-to-use applicator that makes installation so simple that most people can do it on the

first try! And remember: Once Hoops are installed, you'll never again fear the sight of your phone tumbling to the ground camera first. This may not happen, but if it does, you'll regret not having clicked "add to cart". Hoops protect and prolong the lifetime of your phone so that one day you can pass it on to someone else who will love it just as much as you do. It's the new circle of phone life. By extending the lifespan of our devices, we postpone the need to produce new devices. This is one way of working toward a more sustainable future. And to top it all off, Hoops – of course, comes in a recyclable FSC™-certified box.
