The AC2210 USB-C Car Charger supports a combined 95W Power Delivery, divided over the two USB-C ports: a 65W port and a 30W port. The intelligent charger negotiates with the connected device to determine the optimal charging profile, for fast and efficient charging.

For Apple devices and Android devices with Power Delivery support

The USB-C Car Charger is designed to charge a wide range of devices. Including the latest generation iPhones/iPads and Android devices with Power Delivery support. The AC2210 is also suitable for charging laptops up to 65W.

Charging technologies: PD incl. PPS, GaNFast, and Quick Charge 5

The AC2210 includes technologies such as Power Delivery incl. PPS, GaNFast, and Quick Charge 5 to ensure efficient and fast charging.

Power Delivery PPS: Power Delivery PPS ensures the most efficient charging of your device by adding additional charging profiles. Efficient charging generates less heat and prolongs battery life.

GaNFast: Utilizes Gallium Nitride as the semiconductor for efficient and high performance in a compact housing with minimal heat dissipation.

Quick Charge 5: For faster and efficient charging.

Suitable for cars and trucks

Use the AC2210 USB charger in both cars and trucks (12V-24V). Simply connect it to the accessory socket.
