

Lanberg CA-SASA-13CU-0050-BK SATA cable 0.5 m SATA 7-pin Black

Model: CA-SASA-13CU-0050-BK

Manufacturer: LANBERG

EAN: 5901969419450

Product Code: 1248124

R521

Lanberg’s SATA III cable allows its users to achieve a data transfer rate of 6 Gb/s. Whenever you need a good and reliable connection between SATA drives and older desktop motherboards or controllers, this cabling solution is meant just for you.

This particular internal cabling solution will find its use within home and office environments, as well as for industrial applications, server rooms, datacenters or control and surveillance systems.

Metal clips at both ends of the cable make sure that this particular connection is fixed better to the end device’s sockets, which is essence, allows users to avoid unexpected disconnection and provides them with greater protection of PC internal drives and other components, by maintaining an uninterrupted data signal.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

With the use of an angled sockets, it is possible to connect the cable to places usually unreachable or where the access of a straight-ended cable is very difficult.
