

i-tec USB-C Triple 4K HDMI Video Adapter, Power Delivery 100W

Model: C31TRIPLE4KHDMIPD

Manufacturer: I-TEC

EAN: 8595611707735

Product Code: 1746532

R1,881

Ultra-compact and lightweight USB-C graphic adapter with integrated 20 cm cable, designed to easily expand your desktop or notebook with up to three external monitors. Thanks to advanced MST technology, HDR support and compatibility with G-Sync / FreeSync, you can enjoy smooth performance and vivid visuals for work and entertainment.

With Power Delivery up to 100 W and energy-efficient operation, this adapter is ideal for professionals who need maximum flexibility in a small, portable form factor. Compatible with all major operating systems, it’s the perfect solution for productivity at home, in the office, or on the go.

- Connect up to 3 external monitors via HDMI with flexible resolution options (up to 4K/60 Hz or 1440p/144 Hz*)
- Graphic adapter technology: USB-C (MST) + USB-C PD
- 1× integrated USB-C cable (20 cm) for easy host connection
- Power Delivery up to 100 W (internal consumption only 10 W)
- 3× HDMI 2.0 ports for crystal-clear output
- Supports HDR 400–1000, G-Sync, FreeSync

Compatible with major systems: Windows 10/11, macOS*, Android*, iPadOS*, ChromeOS, Linux

* NOTE: The macOS operating system does not support Multi Stream Transport (MST) multi-screen video technology, which means that when connected to macOS, the same image will be projected on all screens.

* iPadOS, Android do not support multi-screen video transfer technology, nor the extended screen option. This means that when connected to an external monitor, only the mirrored screen will be displayed. (Not valid for androids with DEX and Easy Projection extension)
