"USB car charger + mobile holder" from LogiLink

Compact, lightweight and easy to use; ideal for traveling. The smartphone holder for the car ventilation shaft is ideal for keeping the best view on your mobile device. The holder is mounted directly into the ventilation shaft and then the smartphone can be attached. Particularly practical: you can rotate the head of the holder by 360 degrees and is thus very flexible in arranging and orientating the smartphone. The universal car and truck charging adapter from LogiLink can be used
