Charge two devices at the same time, be it your smartphone, tablet or laptop, at impressive speeds. The broad compatibility enables use with most USB-C and USB-A devices. Despite its high performance, the device remains extremely safe thanks to integrated protection mechanisms against overcurrent, overvoltage, overheating and short circuits. The ultra-slim design makes the charger the ideal companion for at home, in the office or on the go. Put an end to slow charging times and enjoy full power in a small but powerful package.
