R2,245

Built for the busiest days, the 15-16” Commuter EcoSmart ® Backpack is packed with protective and functional features to enhance commuting comfort and on-the-go convenience. Equipped with a dedicated, lockable laptop compartment and expandable main compartment, this backpack also comes with plenty of pockets to carry it all. Using fabric woven from recycled water bottles, 16 to be exact, the 15-16” Commuter EcoSmart ® Backpack is thoughtfully designed to protect your work essentials while also protecting the environment.

Whether riding by train, subway, or bike, you’ll need a pack that’s comfortable – so we’ve engineered this bag for ultimate ease – including ergonomic shoulder straps, a padded air mesh back panel for improved airflow and lumbar padding, an adjustable sternum strap, and a luggage trolley strap when hauling rolling luggage.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Traveling after dark? This pack also features reflective accents for increased visibility.

Protection From the Inside Out

This laptop backpack offers many protective features, including its design, materials, and construction. A padded laptop compartment protects your tech from the inside. Meanwhile, lockable zippers on the laptop and main compartment help deter theft on the outside. Thoughtful extras like reflective accents and a hidden back pocket make this the ultimate commuting companion.

Take a Load Off

Engineered for the long haul with ergonomic shoulder straps, a padded back panel, adjustable sternum strap, and trolley strap to set on rolling luggage, this bag delivers on your commuting comfort.

A Commuter’s Dream

Not all commutes are the same. Whether you need a slim bag for tight spaces or something bigger for all your day’s needs, this bag can accommodate. It even offers plenty of pockets - including a hidden valuables pocket - plus an easily accessible patent-pending USB-C connector to keep you properly charged on your journey.

The Bottle Reborn

You no longer have to choose between good looks and eco-friendly design. This sustainable backpack was designed with the environment in mind. By using GRS-certified recycled materials, 16 plastic bottles were kept out of our waterways and landfills. This material was then shredded, spun into yarn, and sewn into this eco-friendly laptop backpack's fabric.
