The precision-built, one-piece cabinet reduces unwanted vibrations. It features an aluminium tonearm to ensure smooth tracking, a die-cast aluminium platter for strength and weight, and a high-grip rubber mat to hold each record firmly in place.

With its minimalist design, the PS-LX5BT looks great in any space, and its high-transparency dust cover offers protection without compromising on the aesthetic.

It supports 33 1/3 and 45 RPM, so you can be immersed in your entire record collection at the right speed with just one switch.

And with its built-in phono preamp and line-out, you can expect a quick, seamless setup.
