

InLine Desktop KVM Switch, 2-port, HDMI, USB 3.0 Hub, with audio

Model: 62622I

Manufacturer: INLINE

EAN: 4043718195886

Product Code: 470869

R4,656

This Device is a 2-Port Smart Touch USB KVM Switch that users can access, control, boot, and reboot their computers with a single set of keyboard, mouse, and HDMI monitor display. It features the latest Smart Touch button for quick switch and two USB 3.0 device ports for fast data transfer between KVM and USB devices. Compare with USB 2.0, USB 3.0 is 10 times faster in transfer rate, which can satisfy modern data transfer with rich media and large digital files. Besides, it supports TTU (True Transparent USB) Emulation Technology which is capable of a complete versatility in dealing with the functional requirements of all types of advanced keyboards and mice.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
