IT'S WONDERFULLY SPLIT!

Flexible, scalable, and divided up in all the right ways: the TUF Gaming GT502 PLUS puts your prized hardware up front and holds your six with a stack of cooling options, bundled system fans, and an ARGB lighting hub to express ultimate performance your way. Load up, lock in, and watch it all thrive.

DUAL-CHAMBER CHASSIS

CLIMATE CONTROL

GT502 PLUS internals are divided into two chambers, allowing you to build clean and configure independent cooling zones for the CPU and GPU. Freely expand your rig and give system components the ideal environment to dish out frames and slice through workloads.

DISCRETE ARGB HUB

HIDDEN IN PLAIN SIGHT

An integrated ARGB hub that supports up to six Aura Sync devices is neatly tucked away under a sleek cover, keeping cable connections in the shade while your system components bask in a customizable glow.

TOOL-FREE SIDE PANELS

FINGER-FRIENDLY RESTRICTIONS

The TUF Gaming GT502 PLUS continues its builder optimizations with side panels that can be removed simply by pressing a button hidden on the rear of the chassis.

PANORAMIC VIEW

SINGLE-STATE PEEKABOO

Tempered glass panels at the front and side provide a tactfully tinted view of the main chamber, showcasing your build to own the room.

FRONT PANEL HIGH-SPEED USB TYPE-C

WITHIN ARM’S REACH

In addition to two USB-A ports, the TUF Gaming GT502 PLUS front panel features a USB 3.2 Gen 2 Type-C port ripe for transfer speeds up to 10 Gbps.

TUF GAMING-STYLE WOVEN STRAPS

WEAVE HO!

Two durable and detachable straps that can support up to 30 kg (66 lbs) make it much easier to move the chassis around even when it’s packed with hardware.

FULLY MODULAR DESIGN

DOWN TO THE SKELETON

Whether you prefer a modest build or a fully-loaded battle station, the GT502 PLUS is ready. Most of its panels and mounts are removable to ease hardware installation – take it apart to your heart’s content then build it up in your ideal image.
