PoE enabling both power and data transmission through a single cable, reducing installation complexity and cost

IK10 Protection

Achieves the highest impact rating (IK10), making the camera impervious to heavy blows and attempted vandalism

Digital Wide Dynamic Range

Precisely capture objects in challenging environments, ensuring optimal visibility in both bright highlights and deep shadows

IP66 Weather-Proof

IP66-rated weatherproofing guarantees durability against dust and water jets, even in the harshest outdoor conditions

See Everything, Miss Nothing

Experience every detail in stunning high definition. Engineered for professional-grade clarity, the BCD-P01 delivers a crisp, consistent view of your business premises around the clock. By capturing high-fidelity footage that reveals critical evidence when it matters most, the BCD-P01 ensures your operations are protected with absolute visual integrity.

Smart Event Detection

Transform your surveillance from passive recording to proactive protection.The BCD-P01 features built-in Intelligent Video Analytics that go beyond simple motion detection, identifying specific events and behaviors in real-time. By filtering out environmental noise, it delivers the precise insights needed to enhance site safety and operational efficiency.

Single-Cable Integration

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
