MOZA Trucking Bundle—a complete package designed for virtual trucking enthusiasts. Featuring the popular TSW truck wheel, R5 DD base, SR-P Lite pedal set, and a dedicated truck mount, this bundle delivers an unparalleled, immersive experience that places drivers right in the heart of the action.

Since its debut earlier this year, the MOZA truck sim wheel has won over sim drivers for its authentic handling, durable design, and attention to detail. Now, with the addition of a 5.5Nm DD base, high-performance pedals and a robust truck mount, this exclusive bundle makes it easier than ever to hit the virtual open road in style.
