

ICY BOX IB-DK2262AC Wired USB 3.2 Gen 1 (3.1 Gen 1) Type-C Anthracite

Model: IB-DK2262AC

Manufacturer: ICY BOX

EAN: 4250078171911

Product Code: 500969

R4,294

Rugged aluminium design

The IB-DK2262AC's solid housing is made of strong aluminium alloy, which makes this housing more durable than ordinary aluminium or plastic products, effectively protecting the DockingStation and equipping it for a wide range of use conditions. The aluminium material and the heat sink design with cooling fins support heat dissipation for an excellent passive cooling effect and protect the unit from overheating even under heavy use.

Triple video output

The IB-DK2262AC provides up to three video interfaces of different resolutions with two HDMI® and one VGA connection, enabling the simultaneous connection of HDMI® and VGA display devices in expansion mode. This is achieved by combining state-of-the-art technologies such as DisplayLink® and DisplayPort™ Alt Mode.

LAN port – fast and safe

Wireless devices are certainly more convenient and good to use in many situations, and yet there are better options if you need high data transfer rates, for example. In addition, wired connections are more secure than wireless connections. Especially if you don‘t want to or can‘t fully exploit the security measures available via WLAN, LAN connections offer less risk. Then an Ethernet interface is the best way to transfer files between devices with high security and maximum transfer rate.
