

Axagon ADSA-D25 SuperSpeed USB DUAL 2.5" SSD/HDD MINI dock

Model: ADSA-D25

Manufacturer: AXAGON

EAN: 8595247906472

Product Code: 514538

R1,105

SuperSpeed USB 5 Gbps docking / cloning station AXAGON ADSA-D25 CLONE MINI quickly and easily connects up to two 2.5" disks to your computer at the same time. The USB Micro-B connector on the dock and included USB Micro-B <-> USB-A cable enables a connection to computer.
This compact helper will allow you easiest connection of any 2.5" SATA drive to computer or notebook. Just insert one or two disks into the base at the same time, no tools or accessories are needed. Changing disks is very quick and easy.

You can use the docking station to easy cloning the contents of connected disks without the need to connect to a PC. Insert the source disk into the first slot of the station HDD A (source) and insert the target disk into the second slot HDD B (target). Then you just press the clone button and watch the cloning process on a scale of four LEDs. After all the data has been copied, there is an exact copy of the original disk on the destination disk. The dock can thus be used as an autonomous device for

convenient duplication and disk image creation. This is the easiest way to transfer the contents of old HDD to new SSD, including a working operating system (Windows, macOS, Linux).

SATA 6G interface with UASP support allows you to enjoy the speed of modern SSD disks. The TRIM feature support limits the gradual degradation of SSD performance over time. Reading of S.M.A.R.T. information monitoring the SSD/HDD condition. Supports sleeping of the connected disks and station.
The station case is sufficiently robust and durable, which allows perfect stability even with inserted disks. Rubber anti-slip pads prevent sliding on the table and vibrations of the hard drives. The outer casing is made of aluminum with an elegant brushed surface.
