ROG XREAL R1 Gaming AR Glasses

Supersize of your Victory

The ROG XREAL R1 is a wearable gaming AR glasses engineered for PC, console, and ROG Ally players who demand total immersion. Experience a massive, fluid viewing experience in a lightweight 91g form factor, featuring a high-performance 171-inch virtual Micro-OLED screen with an industry-leading 240Hz refresh rate and 0.01ms response time—the ultimate portable display alternative for first-person ARPGs and high-speed racing games.

As a core part of the ROG Ecosystem, the R1 offers unparalleled synergy across your devices. A single USB-C connection provides a seamless, plug-and-play experience with the ROG Ally handheld, while the ROG Control Dock acts as a central hub for your stationary setup, letting you instantly switch between gaming consoles and your PC. With native 3DoF technology, you can pin your screen in space or let it follow your movements, while advanced electrochromic lens technology supports automatic transparency for perfect visual clarity in any lighting condition. Feature Sound by Bose audio and Instant 3D viewing; the ROG XREAL R1 gaming AR glasses redefine big-screen gaming,
