R3,527

See Smarter, Live Safer

Safety With Dignity, Care Without Intrusion.

AI-powered fall detection and mosaic privacy protection for your loved ones living independently.

AI Fall Detection with Real-Time Alerts

Worried about elderly parents living alone? The DCS-8610 uses AI movement analysis to detect falls instantly and
send push alerts to your smartphone, giving you peace of mind, wherever you are.

Privacy That Protects. AI That Cares.

Hybrid Privacy Mode

Our AI analyzes skeletal motion to understand movement and behavior without watching the individual. Toggle mosaic blur on or off with a single tap. Fall detection is accurate in the background, so privacy never means less protection.

mydlink Cloud Recording,

Complete Event Protection

Securely capture every critical detail with encrypted, off-site pre-event cloud recording, accessible anytime from the mydlink app.

Capture More of the Moment

Start recording 5 seconds before motion detection and keep recording until 10 seconds after the activity ends to help you see more of what happened.

Off-site Evidence Protection

Even if your camera is damaged or stolen, any footage save to the mydlink Cloud Recording remains securely backed up.

Total Privacy

End-to-end encryption helps keeps your private moments safer.

Access Anytime, Anywhere

Review, download, and share important moments from the mydlink app.

See Every Angle of Any Room

360° view with auto person tracking covers your entire room without blind spots. Panorama view lets you jump to any area with a single tap.
Combined with 2.5K QHD clarity and 7-meter night vision, you‘ll always have a clear picture day or night.

Every Corner, One Tap Away.

Get a stitched view of the entire room. Tap any spot on the panorama to instantly center the camera there.

Get More Control with mydlink

The mydlink app makes looking after your home easier than ever. Manage, control, and set automations for all your mydlink cameras, smart plugs, and sensors anytime, anywhere.

Voice Control works with Google Assistant or Alexa

You can control your camera using just your voice with Alexa or Google Assistant-enabled devices. You can easily see what's happening at home when your hands are full. FINALLY. A way to monitor everything you care about (without lifting a finger).
