

COUGAR CPU Water Cooling Poseidon Vistek Pro 240, ARGB, White

Model: CGR-PSDVPRGB-W-240

Manufacturer: COUGAR

EAN: 4710483779725

Product Code: 1738905

R3,293

The Poseidon Vistek Pro ARGB displays high-definition, real-time system monitoring in ultra-crisp on a supersized 3.95-inch IPS TFT LCD display with customizable visuals, boosting superior liquid cooling with instant data insight.

Supersized System Monitoring

Real-time readouts of critical metrics are delivered by a large 3.95 inch IPS TFT display in an ultra-crisp, 720 x 720 resolution with a smooth 60Hz refresh rate for an enhanced viewing experience, enabling full view visibility from any angle.

Operational Control

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Performance data and absolute control over customisation and display alignment can be instantly and fully accessed through the installable software, equipping you with a command center console directly on your desktop.

Make It Yours

Customize the visuals on the Vistek Pro ARGB using a wide range of compatible formats—including JPG/PNG/GIF/MP4.* Personalize the display with your favorite image, animations, or moments from movies and TV. Track your PCs performance in real time...and real style.

Critical View

Keep an eye on CPU and GPU temperatures, load, fan speed and more—updated in real time and always in view.

Personalized Visuals

Display photos, logos, artwork, or anything that shows off your style.

Dynamic Animations

Bring your screen to life with animated GIFs or your favorite moments from movies and TV.

Easily Installed Controlled Cooling

Single-frame PWM fans streamline multi-fan installation by connecting as a single unit, providing precise fan speed control, exceptional cooling, near-silent operation, and stunning RGB lighting.

Cutting-Edge Compatibility

The Poseidon Vistek Pro ARGB supports AMD AM5 and Intel LGA1851 sockets.

Peak Radiator Efficiency

UTTERIGHT radiator fins are precisely contoured at a right angle which expands the heat transfer surface area, pushing thermal efficiency beyond conventional structures.

Expanded Cooling Plate

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
itworkup.co.za | sales@itworkup.co.za | +27 (11)541-9950

An enlarged copper cooling plate increases coolant contact area by 21% compared to the Vistek Pro’s predecessors,effectively managing the thermal output of 14th gen Intel CPUs. This expanded surface area augments heat conduction efficiency, minimizes hotspots and maintains the stability of high-performance processors under intensive operation.
