

Hannspree Open Frame Monitor

Model: HO221PTB

Manufacturer: HANNSPREE

EAN: 4711404025037

Product Code: 1739040

R5,692

Designed for demanding professional environments, our new HO221PTB Touch Monitor is built for flexibility and durability. The monitor features a sturdy metal housing, 3.6 mm protective glass with anti-fingerprint coating, and a full-flat front design for seamless integration into kiosks, industrial systems, and embedded applications. Multiple digital inputs (DP and HDMI), an integrated USB 3.0 hub, and built-in speakers ensure easy connectivity and enhanced usability.

Built for Integration, Designed to Perform

An excellent choice for commercial applications, interactive digital signage, instore retail, gaming and amusement arcades, POS terminals, interactive kiosks, and presentation purposes.

Seamless Touch, Endless Possibilities

Empower teams to play, create, and collaborate with PCAP technology supporting 10-point multi-touch functionality. Enjoy effortless annotation, smooth navigation, and precise control with intuitive tap, swipe, slide, and pinch gestures.

The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

A durable glass overlay ensures reliable performance, resistant to dirt, dust, condensation, liquid spills, and cleaning solutions—making it the perfect choice for everyday, long-lasting use.

Crystal-Clear Precision with Optical Bonding

Experience exceptional clarity and responsiveness with Optical Bonding Technology in our HANNspree HO221PTB Touch Monitor. By eliminating the air gap between the touch panel and display, this advanced bonding process reduces glare and reflections, enhances contrast, and increases durability.

The result? Vivid visuals and an ultra-responsive touch experience with superior accuracy—perfect for professional applications, gaming, and interactive environments.

See the difference. Feel the precision. Elevate your touch experience today.

Full HD Resolution and wide viewing angles 178°

The HANNspree HO221PTB combines Full HD 1920 × 1080 resolution with 10-point projected capacitive (P-Cap) touch technology to deliver precise, responsive interaction and outstanding visual clarity. With an ultra-wide 178° viewing angle, content remains sharp and consistent from virtually any direction. This provides greater flexibility when extending your screen, ensuring superb color and contrast—even from extreme viewing positions—without colors washing out.

Multi-Touch Screen with 7H Surface Hardness

A 7H scratch-resistant surface ensures durability and a consistently high-quality touch experience. Scratch resistance is essential for touch solutions in education and public environments. A toughened glass overlay protects the screen, allowing the panel surface to withstand scratches and impacts from everyday objects—making it ideal for public spaces and educational institutions.

With its 7H hardness rating, the HO221PTB is engineered for integration into kiosks, industrial systems, and embedded applications - delivering long-lasting protection against impacts, dirt, and daily wear.

Support Multi-OS
